All,

The Pavillion maps have been revised per Gary's request.....pdf copies of the revised maps can be accessed at

<https://docs.google.com/folder/d/0BzlvGV8Z948BUnZ2cGk2YTlhajg/edit>

John,

Thank you for the DEQ map set. Would it be possible for us to receive the shape files? I found many changes that should be made and can be found on the attached list. I also included the Bradenhead test data. In reviewing our records it appears well 32-11 also had a bradenhead gas analysis run. Unfortunately, our records don't have the data. I emailed Encana for this request and wait on the answer. The well integrity group needs to meet soon but we need correct maps 1st along with an agreed upon set of definitions. These include distances between wells, define shallow casing, USDW water, wellbore integrity and a bradenhead test is not a pass-fail test. It is to lead us to further testing only.

Thank you all. I will doodle poll you for a date to meet in early in Nov.

Gary Strong WOGCC.
